

## Lab-Sheet-1 Introduction to HTML

1. Design a page having suitable background color and text color with title “My First Web Page” using all the attributes of the Font tag.  
*(attributes of font are: size, color and face)*
2. Create a HTML document giving details of your [Name, Age], [Address, Phone] and [Register Number, Class] aligned in proper order using alignment attributes of Paragraph tag.  
*note: (name and age align center, address and phone align left , register number and class align right)*
3. Write HTML code to design a page containing some text in a paragraph by giving suitable heading style and some text formatting tags. Also use semantic markup (citation, abbreviation, quotation, strong & emphasis).
4. Create a page to show different character formatting (B, I, U, SUB, SUP) tags.

*example :*       $\log_b m^p = p \log_b m$   
 $4x_1^5 + 7x_2^2 - 10x_3 = 39x_0$   
 $C_6H_{12}O_6$  and  $NO_2$
